

Thanks for the opportunity to provide feedback on this issue. We are writing you to let you know that we feel K-LOVE needs to be retained on FM translators and not displaced by Low Power FM.

1) K-LOVE serves us as the radio station that we listen to more than 75% of the time, more than the only local news station. It is the only station that we let our children listen to because it is family friendly, wholesome, and promotes good attitudes, behavior and conversation.

We as adults also very much enjoy the excellent music; it is the only station that provides the kind of programming that it does.

2) We live in the area of northernmost California, far from commonly received broadcasts. There is no other spiritual, wholesome, contemporary broadcast for this community except K-LOVE. If an LPFM broadcaster displaced K-LOVE that would be a disaster, removing the only station that reaches out to the large majority of listeners in this area who yearn for clean, trustworthy programming.

3) The service provided by K-LOVE is in the public interest, first, because we ourselves are part of the public and are best served by K-LOVE. Second, a significant minority of listeners in these parts also listen to K-LOVE, and they are part of the public as well. Third, travelers who pass through this very wide swath of land can tune into the local K-LOVE stations as they drive through and listen to good clean broadcasting. Fourth, if K-LOVE is removed the public interest would not be served because some listeners would tune in elsewhere to music which has debased, corrupt, vile, immoral, child-unfriendly lyrics. This kind of music is already common up here on many stations. K-LOVE provides the only station with contemporary music that goes against the trend of the day of immorality in behavior. People who listen to K-LOVE tend to live like the music encourages: Good, solid, healthy, wholesome lives, which is an excellent influence on the communities of which they are a part.

In summary, please allow K-LOVE to not be displaced or reprioritized under LPFM stations. Please allow K-LOVE to retain its priority using FM translators instead. It's the best thing for us, and for the public.

Thank you.

Best Regards,

Tom and Diane Pella
